Legendary Dimensional Robo, Daikaiser Leon

Comment from the Illustrator, Obari-sensei

At first, I was thinking of drawing something blocky and angular. However, the idea that "as the unit is more simple when it evolves, it becomes more contoured" got into my mind and this is the final product of the concept.

I saw the Merlion when I went to an event in Singapore recently and I got inspired by it. This illustration is full of my love towards Singapore too!
