Animation Q&A Corner

Leon Soryu

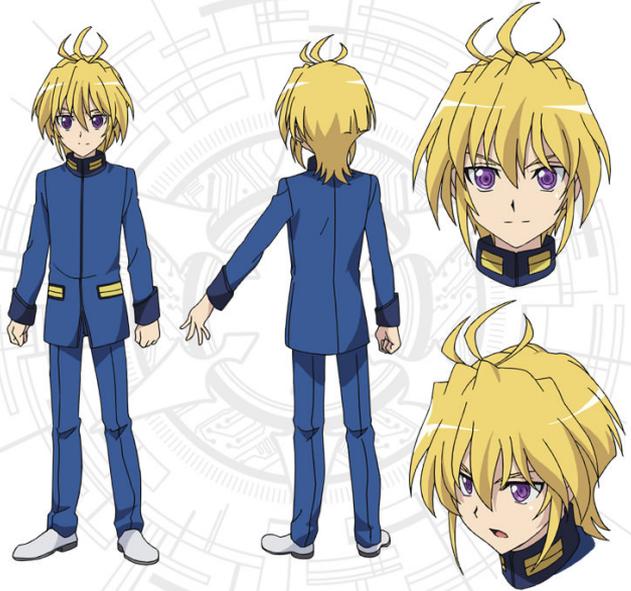

I watched Episode 6!
Why does Leon seem to be different from the
previous series?

Please provide a detailed explanation!

Regarding this series...

*Aqua Force was not sealed!
...so Leon's family did not lose their power!
...and Leon did not lose himself to the Void!*

The “descendant” Leon who took on the responsibility of returning his family and Aqua Force to their former glory was from the previous series!

This time, he's just a cardfighter who purely loves vanguard and was raised among friends in peace times!

Vanguard had a “Reboot” instead of a “Remake”!

Each individual character’s lives has many instances of “if”, similar to the way the next card you draw may change the game!

It’ll be greatly appreciated for fans of the previous series to re-encounter these characters, keeping in mind of the “if”!

Machining Stag Beetle

When placed, **call two card from your soul in rest!**
Active even as a rear-guard!

If it's on your vanguard circle, it gets the original power of all of the called units.

Machining Spark Hercules

- Stand 5 units and they get Power+5000
→ Rest all of your opponent's units,
and they get Power-5000
- Put an ally into your soul, and it gets Power+5000
until end of turn for
each of your opponent's resting unit!!
